As the taproom manager at Ghost River, my role includes managing employees, scheduling food trucks, and planning and overseeing events and live music. I run all the social media accounts and provide all the graphics and photography for all the channels. Through this we have created relationships with several clients, vendors, and small businesses. HARVEST CREATIVE - GRAPHIC DESIGNER / PHOTOGRAPHER JULY 2013 - MAY 2016

As a graphic designer at Harvest Creative, I designed and worked closely with my team on numerous projects for clients of all sizes. I worked closely with two senior designers and collaborated with our full creative team to provide thoughtful campaigns for our clients. Along with design, I was tasked with taking over several social media accounts for our clients and providing them with copywriting and graphics. I took the initiative and organized our server, by determining a system of hierarchy for our projects and creating naming systems to be used by the entire office. I took on several photography projects as well, from lifestyle shoots to product focused work.
